HTML; CSS; JavaScript; TypeScript; React.js; Storybook; Microfrontend; Material UI; Responsive Web Design.

Filipe Oliveira

Frontend Developer

Responsible for developing, testing, and maintaining internal web applications and interfaces, ensuring seamless cross-browser and cross-device compatibility. Expertise in HTML5, CSS3, JavaScript, TypeScript, React.js to build scalable and high-performance solutions.

Responsibilities

- Collaborated closely with designers, providing technical guidance on feature functionality and interface feasibility.
- Worked with developers to deliver frontend code optimized for seamless integration.
- Translated designers' **usability and aesthetic vision** into fully functional, cross-browser, and cross-device compatible interfaces.

Skills

- Strong attention to detail, problem solving, and time management.
- Effective collaboration in team and cross-functional environments.
- Strong knowledge of HTML5, CCS3, Javascript.
- Proficiency using Photoshop, Illustrator, Sketch and Figma for web production (guides, asset management, image optimization).
- Mentoring and onboarding junior frontend team developers.
- Excellent communication skills in international projects.

Work experience

Senior Frontend Developer

Since March 2025 CGI

- **Maintained, optimized, and enhanced** multiple React applications to improve performance and user experience:
  - Developed new reusable UI components using Storybook.
  - Integrated comprehensive unit testing with Jest and ensured code quality through SonarQube analysis.
  - Conducted thorough code reviews, approved merge requests, and managed deployments across multiple environments using GitLab.
  - Actively participated in Agile Scrum processes, including sprint planning with story point estimation, daily stand-ups, and ticket management using Jira boards.
  - Delivered pixel-perfect user interfaces aligned with Figma designs.
- **Collaborated on an international project** based in Germany (Robert Koch Institute), contributing to cross-functional teamwork and global communication.

Tech Stack
Frontend: HTML, CSS, React.js, TypeScript, Storybook
Testing & Quality: Jest, SonarQube
Tools & DevOps: GitLab, Visual Studio Code
API & UI Design: REST APIs, Figma

Work experience

Senior Frontend Developer

From February 2024 to March 2025 Aceve - former HVD Group

- **Developed a micro-frontend React application** to display summary payment data.
- **Maintained and optimized** a Vue 2 Backoffice cloud application:
  - Added new UI features and enhanced legacy code for improved performance.
  - Integrated unit testing with Jest and configured SonarQube for code quality.
  - Conducted multiple code reviews, approved merge requests, and deployed across various environments in GitLab.
- **Built HVD Group's landing page** from scratch using HTML, CSS, and JavaScript for optimal performance.
  - Implemented pixel-perfect UI based on Figma designs.
- **Enhanced multiple Angular applications** (NPS Rating, CRM Insight, Communications, Booking):
  - Led brainstorming sessions with UX/UI teams to refine user interfaces.
  - Improved legacy code for better efficiency and maintainability.
  - Integrated Jest for unit testing and set up SonarQube for quality assurance.
  - Reviewed and approved code, managing deployments across environments in GitLab.
- **Developed proof-of-concept (POC) solutions** using Adyen payment web components and the Single-SPA framework.
- **Collaborated on international projects** across Sweden, Denmark, Norway, Finland, and Germany.
- **Traveled to Stockholm, Sweden, for on-site work.**

Tech Stack
Frontend: HTML, CSS, SASS, React.js, TypeScript, Micro-frontend, Material UI, Bootstrap, DevExtreme, Angular, Vue 2
Testing & Quality: Jest, SonarQube
Tools & DevOps: GitLab, Visual Studio Code
API & UI Design: REST APIs, Figma

Work experience

Senior Frontend Developer

From May 2016 to November 2023 Deloitte Digital - former Wingman

- **Developed newsletters and maintained web platforms** for various clients.
- **Led UI improvements** for a major Portuguese airline, enhancing performance and AAA accessibility compliance:
  - Developed new features for the company's website.
  - Refactored legacy code into a more modular and high-performance structure.
  - Optimized Core Web Vitals for better speed and user experience.
  - Translated UX/UI team designs from Photoshop, Sketch, and Figma into responsive web interfaces.
  - Mentored junior frontend developers and managed frontend teams.
  - Integrated Sitecore components and pages within Visual Studio.
  - Managed frontend development tasks directly with clients.
  - Oversaw ticket management in Azure DevOps, code reviews, pull requests, and deployments across multiple environments.
  - Followed Scrum methodologies for project execution.
- **Led frontend development** for a Canadian truck transportation company:
  - Implemented new website features and ensured smooth corrective maintenance.
  - Onboarded and mentored junior frontend developers.
  - Served as the frontend team lead for the project.
  - Managed client-facing frontend tasks and requirements.
  - Integrated Sitecore in a headless architecture with React.
  - Handled ticketing in JIRA, code reviews, pull requests, and deployments via Bitbucket.
  - Applied Scrum methodologies for project tracking and task completion.
- **Performed corrective maintenance and feature development** for a U.S. cruise industry client (Mexico, Argentina, Colombia, India):
  - Developed new website features and optimized frontend performance.
  - Integrated Angular, React, and Vue with Adobe Experience Manager (AEM).
  - Managed ticketing in JIRA, code reviews, pull requests, and deployments via GitLab.
  - Followed Scrum methodologies for task management.
  - Reviewed technical specifications in Microsoft Confluence.

Tech Stack
Frontend: HTML, CSS, SASS, JavaScript, TypeScript, React, Vue, Angular, Razor
CMS & Platforms: Sitecore, AEM (Adobe Experience Manager)
Project & DevOps: Azure DevOps, JIRA, GitLab, Bitbucket, Confluence, Visual Studio 2019
Design & UI: Photoshop, Sketch, Figma

Frontend Developer

From July 2013 to May 2016 Exictos - Asseco Group

- **Developed a banking web application** for account management in Angola (**BAI**):
  - Collaborated with UX/UI teams to design user interfaces for both tablet and web applications.
  - Built the entire web app using **HTML, CSS, and Vanilla JavaScript**.
  - Translated Photoshop designs into responsive UI components.
  - Integrated backend services and optimized **Core Web Vitals** for better performance.
  - Developed Android layouts and styled pages within **Android Developer Tool (ADT)**.
- **Implemented institutional banking websites** for **Banco BIC** and **Banco YETU** in Angola:
  - Developed **HTML, CSS, and JavaScript (jQuery)** layouts.
  - Converted UX/UI team's Photoshop templates into fully functional web pages.
  - Integrated all web content into **dotCMS**, using **Velocity** for dynamic content management.
  - Created instructional manuals for content managers working with **dotCMS**.
- **Developed and maintained the company website** for **Exictos – Asseco Group** (Portugal):
  - Built and structured **HTML, CSS, and JavaScript (jQuery)** layouts.
  - Integrated content into **dotCMS backoffice** with **Velocity** for content management.
  - Authored instructional documentation to assist content managers in using **dotCMS**.

Tech Stack
Frontend: HTML, CSS, JavaScript, jQuery
CMS & Tools: dotCMS, Velocity, Photoshop
Development & Integration: Eclipse, IBM WebSphere, Android Developer Tool (ADT)

Work experience

Frontend Developer

From September 2012 to May 2013 dJomba - new media & digital marketing

- **Developed promotional web applications** for food and beverage brands:
  - Built web apps using **HTML, CSS, JavaScript (Vanilla), PHP, and jQuery**.
  - Converted **Photoshop** templates from the UX/UI team into responsive web interfaces.
  - Integrated backend services for dynamic content and user interactions.
- **Built company portfolio websites** using **HTML, CSS, JavaScript, PHP, and jQuery**:
  - Developed and structured interactive portfolio websites.
  - Implemented pixel-perfect UI designs based on **Photoshop** templates.
- **Implemented small Facebook ad integrations** to enhance brand engagement.

Tech Stack
Frontend: HTML, CSS, JavaScript, jQuery
Backend & Integration: PHP
Design & UI: Photoshop

Education & Certifications

React - The Complete Guide 2023 (incl. React Router & Redux) + TypeScript

From November 2022 to January 2024 Udemy Online

Deep dive in and learn React.js from scratch, Hooks, Redux, React Router, Next.js, Best Praticce and way more! + Understanding TypeScript

Learn by doing, Frontend web development

From January 2012 to February 2016 Code School Online

Hands-on training in JavaScript, jQuery, HTML5, CSS3.

Training in Software Development

From November 2006 to February 2007 NHK

Covered Logic Programming, Visual Basic, Java, PHP.

Technical qualification at level IV (Bachelor's degree)

From 1998 to 1999 Centro de Artes Gráficas e Multimédia da Venda Nova

Multimedia Technicians Course (Office, Photoshop, Corel Draw, Flash, Director, Sound Forge, Cool Edit Pro, Premiere, 3d Studio Max), taught by IEFP (Instituto de Emprego e Formação Profissional), with a final average of 16 points (maximum score).
